

Hong Kong Epilepsy Society VNS Therapy Masterclass 2024

Sat | 27 January 2024
Salon I-III, Lobby
Level 2, Hyatt Regency TST

Programme Highlights :

- The target audience would be adult and paediatric neurologists, neurosurgeons, and nurses, in both Hong Kong and nearby territories. Topics covered would range from treatment options of drug-resistant epilepsy, and patient selection for VNS in both adults and paediatrics, to the introduction of Hong Kong experience and case-based discussion.
- Lecture on the surgical procedures for new cases, replacement and revision would be provided, on top of the hands-on workshop on 3D-printed surgical models for VNS electrode placement. To enhance the multidisciplinary care of VNS programming, evidence-based lectures and workshops on programming would be provided, together with a session on the nursing role of VNS therapy.
